EDUCATION

Instituto Politécnico de Bragança

Sept 2018 - Jan 2023

Degree in Computer Science Engineering

WORK EXPERIENCE

Horus Software

Jan 2024 - Mar 2024

Font-End Developer | Full-Time

Led the conceptualization and development of a dynamic project from inception to execution.

- Frontend engineering.
- Javascript, HTML, CSS and Git.

InforViana

Sept 2015 - Jan 2018

Trainee Software Developer | Full-Time

Professional internship that occurred in parallel to my high-school studies. I had the chance to learn immensely about my field and connect with professionals in the area. I was able to develop and apply my theoretical knowledge from school and gained valuable insight about working and behaving in a team.

- Frontend & Backend engineering.
- Brainstorming and solutions development.
- Javascript, HTML, CSS, Bootstrap and Git.

PROJECTS

Landing Pages

Julh 2023 - Present

Made multiple landing pages, some of them not live due to domain ownership. These kind of projects were made using HTML, CSS, Bootstrap, ReactJS, NextJS and Javascript.
