PROFILE

Passionate about technology and dedicated to understand how things work, I'm a positive and energetic young man who thrives in the face of adversity and never backs away from any challenge or problem.

Constantly learning about my field, I love to use my knowledge and creativity to develop new and innovative solutions that benefit society as a whole.

WORK EXPERIENCE

InforViana   Sept 2015 - Jan 2018

Trainee | Full-Time

Professional internship that occured in parallel to my high-school studies. I had the chance to learn immensely about my field and connect with professionals in the area. I was able to develop and apply my theoretical knowledge from school and gained valuable insight about working and behaving in a team

- Frontend & Backend engineering.
- Brainstorming and solutions development.
- Javascript, HTML, CSS, Git

Táxi Araújo   Contract - Present

Taxi Driver | Part-Time

Part-time job that allows me develop my personal and social skills

----
